

**Building Pixar LEGO
lamp with LED lights for
my home office**

A hand is holding a yellow and blue ball made of LEGO Technic bricks. The ball has two horizontal blue bands. In the background, an open LEGO instruction manual is visible, showing step 50 with a red star icon. The manual is on a wooden desk with various items like a keyboard, a mouse, and a small airplane model.

**Step 1. Ball as a stand
for the lamp**

Step 2. Arm and base of the lamp!

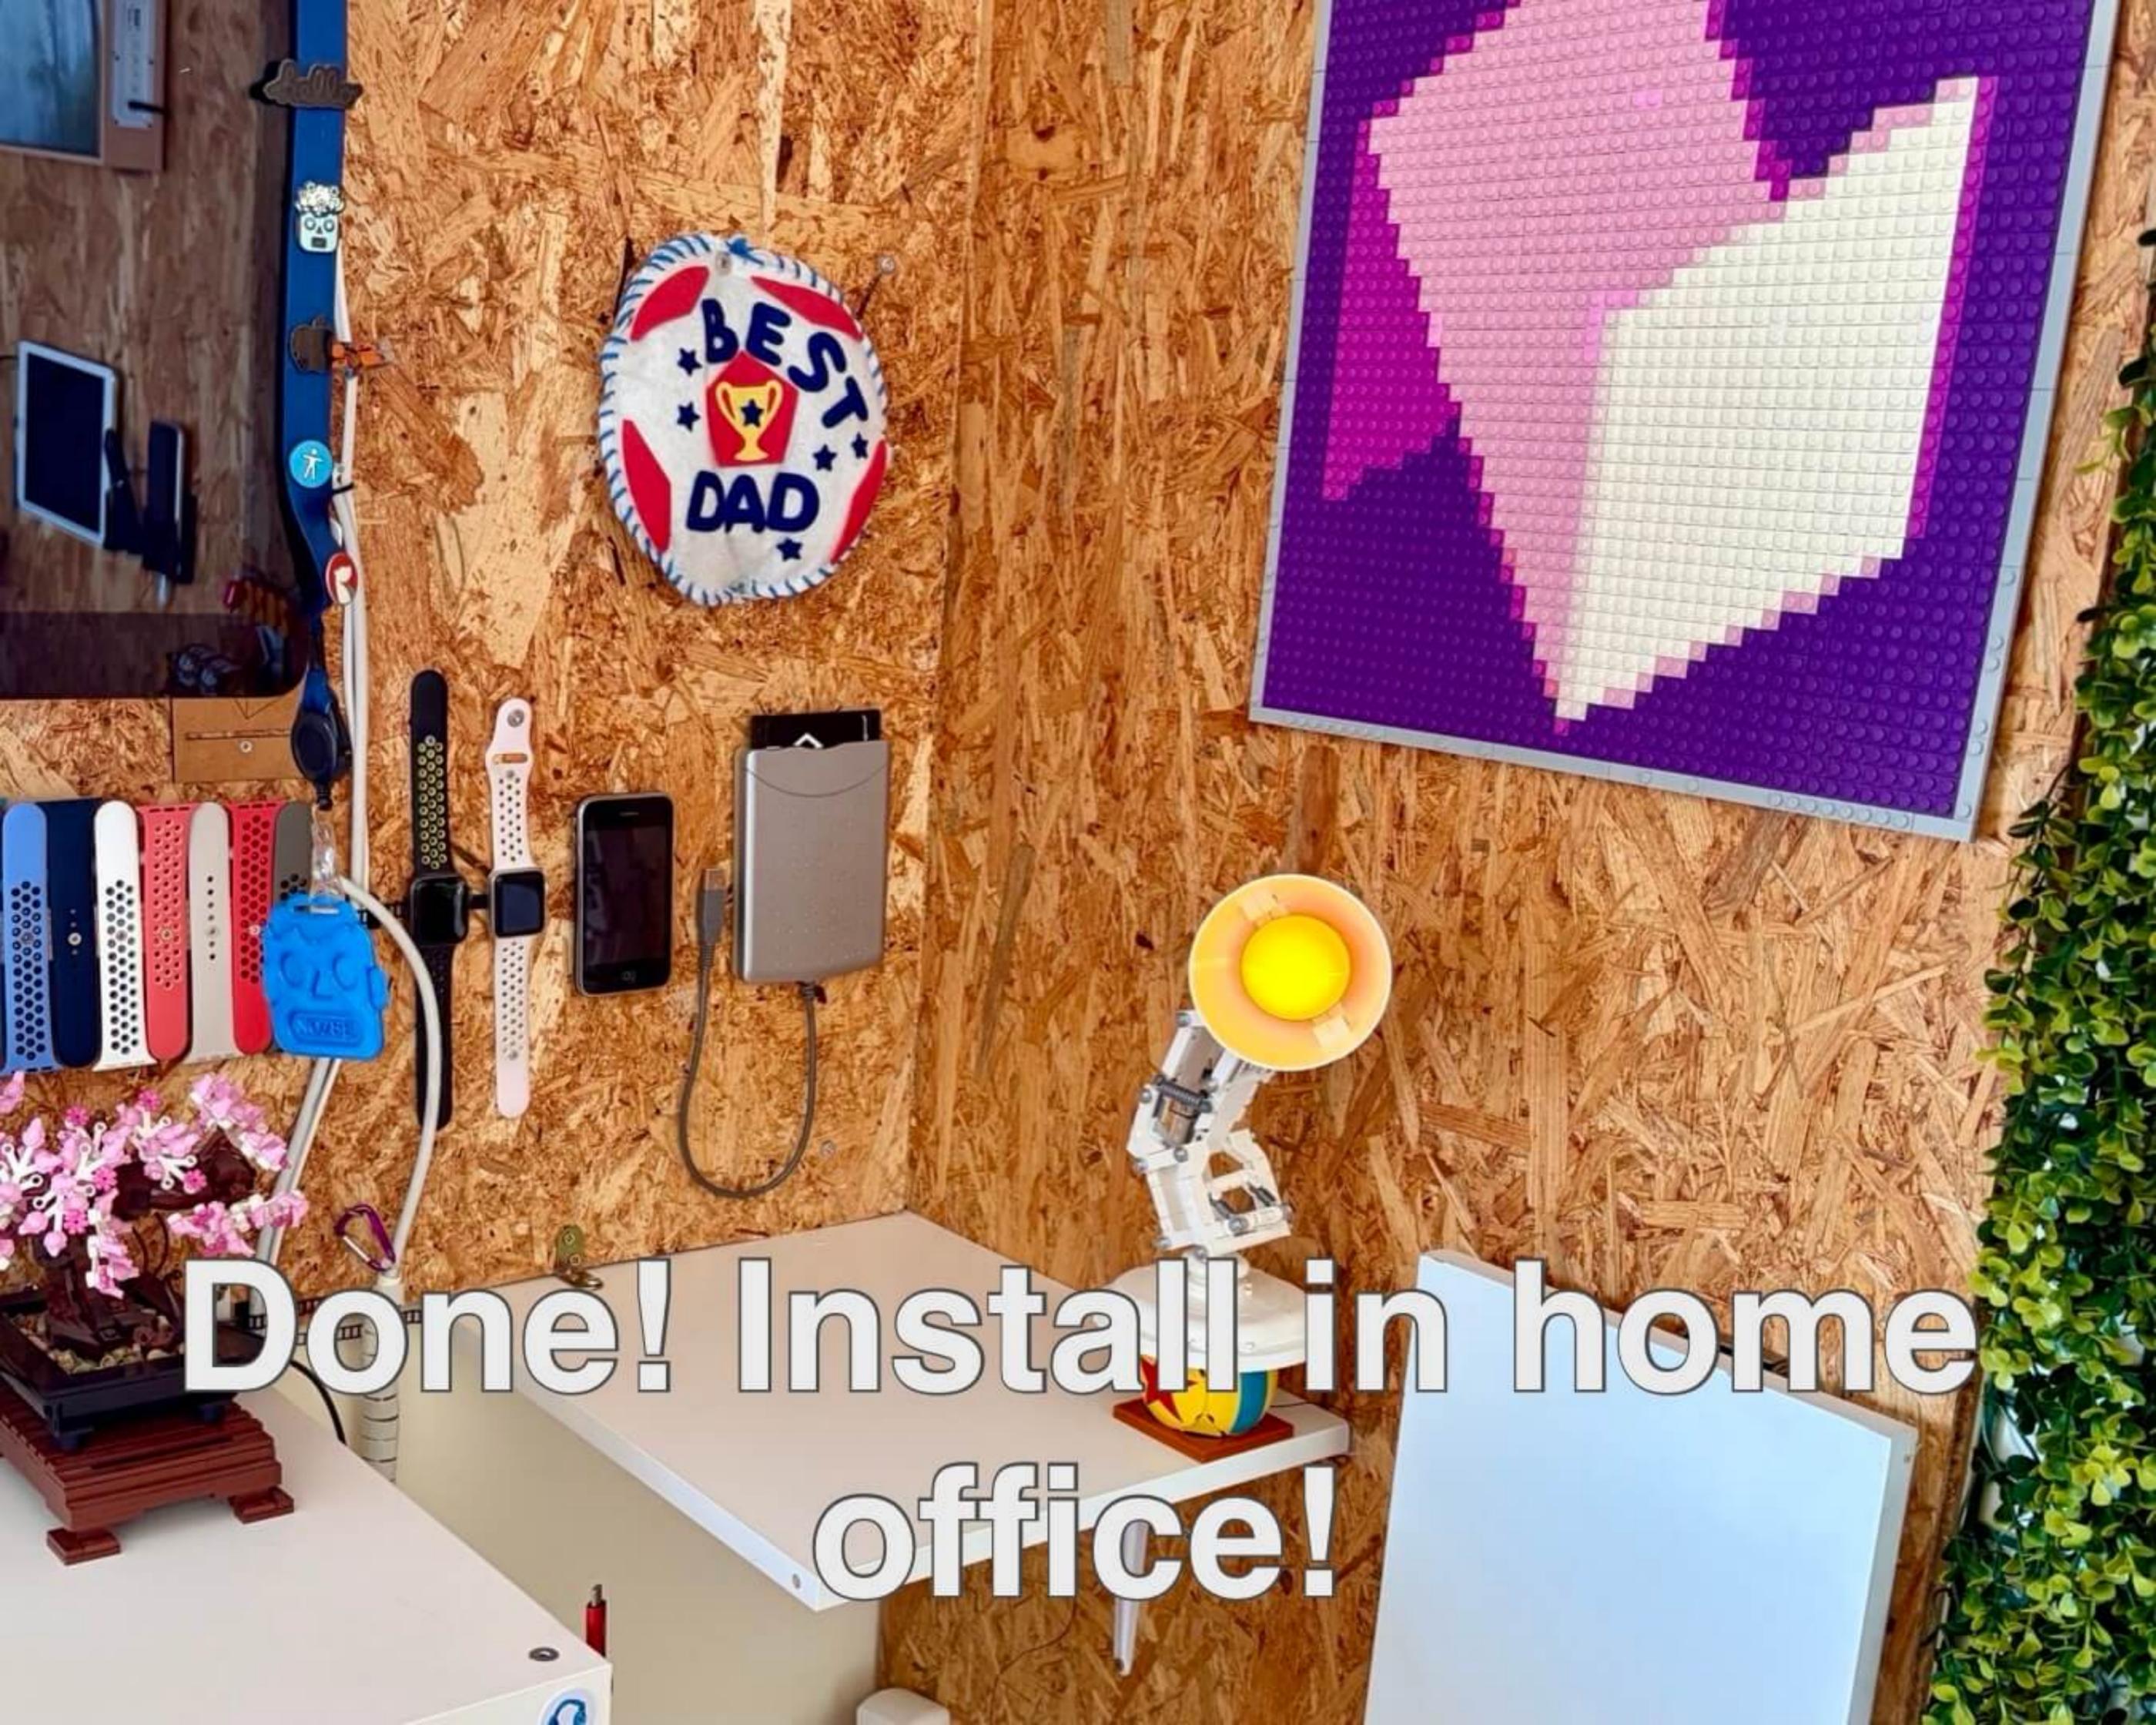

**Step 3. Lamp is ready.
How about the lights?**

**Step 4. Install the wires
and LED lights!**

Step 5. Take care of the wires so that it looks cool!

Done! Install in home office!
